

# Technically-perfect AV

For stress-free conferences

*"I couldn't be happier... Everything ran smoothly from start to finish."*

**Geanina, University College London**

# AV is the ultimate 'make or break' moment

You're terrified the tech will flop. You've experienced the almighty 'cringe' when the audio fails. And it always seems to be "someone else's fault".

We believe the best AV is the AV that no-one notices. And we believe YOU deserve to relax and enjoy your own event too.

That's why we guarantee technically-perfect AV. Or your money back.

*"From the pre-event planning, through to set-up and on-site execution, I feel there are no safer hands. The team are all incredibly professional, knowledgeable, proactive and fun to work with and I wouldn't hesitate to recommend them to anyone looking for an AV partner."*

**Jenna, Clear Path Analysis**

# How we guarantee flawless AV

(and an unusually sociable and smiley tech team)

- We only use top spec tech (think Royal Albert Hall speakers, Venice Film Festival lighting and Netflix-approved cameras).
- We own all our kit and we keep it pristine.
- We employ AV geeks with hearts of gold and we look after them.

*"We used Clownfish for production and AV and had a fantastic experience. The staging was slick, and sound and lighting worked really well. The team were friendly, professional and very helpful."*

**Aaron, Gate One Consulting**
